Your Tractor's Best Friend

SIROMER ROTOVATOR

Designed to prepare a seed bed from previously worked soil.

Dig depth is adjusted by use of skids.

Semi offset to cover wheel tracks.

Gear driven by oil immersed and heavy duty wide precision ground spur gears.

Adjustable rear door held in position by 4 heavy duty springs.

Comes complete with shear pin PTO shaft.

Fits most industry standard CAT II linkages.

Complete with jack stand to keep the machine steady whilst not mounted.
